## SPECIAL FEATURES

### INCREASED GENERATING POWER

### ENHANCED WORKING PERFORMANCE

**QUIETNESS.** By increasing the rotational speed, engine noise is reduced while power generation output increased as compared with current model.

**MANUEVERABILITY.** Recoil rope guard is added to prevent the damage on the side cover during recoil operation.

**EASE OF MAINTENANCE.** By changing the shape and enlarging the oil drain guide, the oil inlet is improved to allow oil filling directly from an oil bottle. (Not applicable to all bottles)

- Filling the oil

- Draining the oil
